REVIEW

Top Issues and Ideas – Old Slide

Advancement

- Need to set priorities and mentorship within the community to ensure that everyone gets ahead.

Representation

- Some Admiral's will go outside of the community even though one of the first thing they learn in New Flag school is to pick your Writer wisely.

Recruiting

- Need to recruit the best and the brightest and stay within the guidelines Navy has set. There is, and will always be, exceptions to the rule, but....

REVIEW

Top Issues and Ideas – Current

● Advancement

- Number of Warfare pins earned is up. E5-E6 advancement rates up from previous.

● Representation

- Admiral's getting more willing to ask Writer leadership for advice and working with detailer to fill 2514 billets with 2514.

● Recruiting

- Regionalization is screening for the best and brightest candidates. Senior 2514 leadership is going on the road to conduct PDBs and interviews with candidates from the Fleet.
 - With that said, we had a large attrition rate in the E5 paygrade over the last year.
 - Concentrate efforts on that HOT RUNNING E6's and E7's.
